

Pavement and shoulders

You cannot stop or park on a bicycle path, footpath, shoulder or pavement. The same applies to median strips, traffic islands and the like.

A vehicle can stop or park with all or part of the vehicle on the shoulder, or with part of the vehicle on the pavement if outside densely built areas. However, only if the maximum permissible laden weight does not exceed 3.500 kg.

Do you want to know more?

You can find more information on Parkeringskontrol Nord's website:

www.pnord.dk

You can also find the Road Traffic Act and other legislations which are applicable for parking, sign posting and collection of parking charges online at the library or at

www.retsinformation.dk

Local parking regulations can be found on your municipality's website.

Parking regulations

Do you know the rules?

It is the responsibility of Parkeringskontrol Nord to help ensure that the city continues to be a pleasant place to travel for pedestrians,

cyclists and motorists.

It is therefore important that you as a driver comply with the regulations for parking.

It is your responsibility to keep up to date with the Road Traffic Act and the applicable parking regulations.

Stopping and parking

Stopping prohibited

You are not permitted to stop here. Not even to pick up or drop off passengers.

Parking prohibited

You are not permitted to park here; however, you are permitted to stop for up to 3 minutes.

It is permitted to load and unload goods and also pick up and drop off passengers.

Remember the sub-signs

Example 1

This sub-sign means that the stopping prohibition is applicable both *in front of* and *behind* the sign in the driving direction.

Example 2

You are able to stop in this area but you are not permitted to park *behind* the sign in the driving direction. You are able to park for up to 30 minutes of the specified time frame *in front of* the sign in the driving direction.

Signs for specific areas (Zone-sign)

Parking prohibited

Here you are not allowed to park throughout the whole area except where designated parking spaces are marked. An area can be a contiguous area such as an open space, square or similar. The parking prohibition applies from when you are passing a zone-sign at the entrance until you are passing a zone-sign indicating a termination of the prohibition at the exit. Please note there may be sub-signs.

Play and living area

In this area parking is completely prohibited for cars outside specific marked spaces. This prohibition does not include bicycles, mopeds and motorcycles.

Parking Disc

A parking disc must be used at places where it is sign-posted that parking is time limited and no ticket machine is placed. There must only be one parking disc and this must be clearly displayed in the windshield. The parking disc must have a pointer which must be set at the time of the start of the parking. Further information can be

Parking Ticket

If you park at a place where there are ticket machines, then you must place the ticket in a way where it is visible through the windshield. You should be aware of the fact that the ticket can easily blow away when you close the door or if you have a window slightly open.

Junctions and the 10-metre-rule

According to the Road Traffic Act it is not permitted to park in a junction within 10 metres from the closest corner of the crosscutting lane or bicycle path. The 10-metre-rule applies to all junctions.

The purpose of the 10-metre-rule is to improve the view for road users, so that drivers can see pedestrians, bicycles and mopeds better.

If the corner is rounded, the closest corner will be the place where the roads meet in a sharp angle. As a general rule, you can calculate the distance by counting tiles. The tiles are 80 centimetres long and there should therefore be 12,5 tiles between your car and the junction.
